

Foundations and Resources for the Community

Professor Awais Rashid and Professor Steve Schneider

contact@cybok.org www.cybok.org

Codify *foundational* and generally recognised knowledge in cyber security following broad community engagement nationally and internationally

A *guide* to the body of knowledge

Focus is on *established foundation* of the subject (not on everything that has ever been written or on still-emerging, nascent, topics)

- >115 Experts: Authors, Reviewers, Advisors
- >1000 Pages
- >2200 Authoritative sources
- >1600 Comments from wider community
- >30 Invited talks, panels and keynotes

REGULATORY ASPECTS

&DEFENCES

Keeping the Foundations Strong

Open call for proposals to update current KAs or propose new ones: CyBOK 1.0 -> CyBOK 1.1

Not just reactive but also proactive: ongoing development of a process of expert review of subsets of KAs leading to regular refresh

Pro-actively develop guides that capture practical pathways through CyBOK or emerging knowledge in the community

Supplementing the Foundations

Knowledge Guides: Emerging topics or those that are still developing broadly agreed foundations

Security and Privacy of Al

Security Economics

Topic Guides: Practical applications that cut across multiple CyBOK KAs

Resources for the Community by the Community

Free resources are available for education, training, course development and professional development:

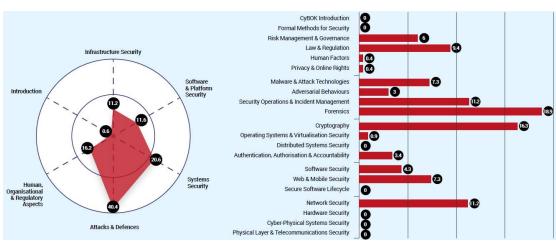

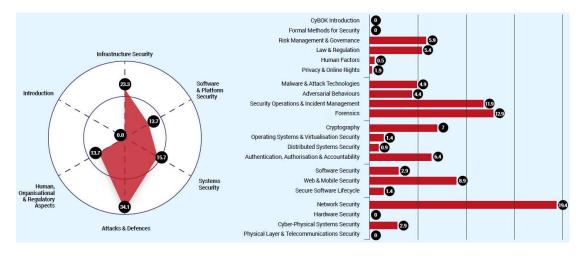

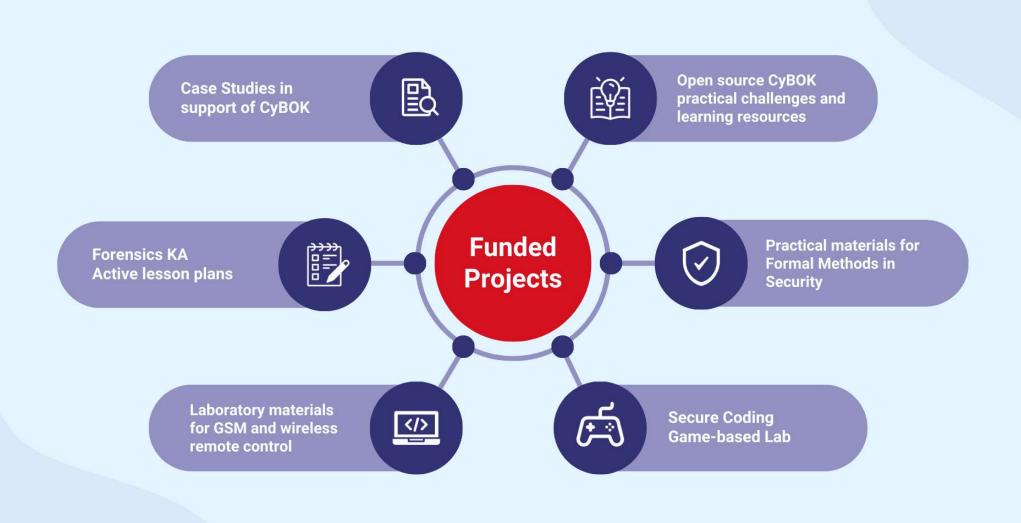

Mapping booklet

- New version coming soon
- Will feature mappings of ~40 university courses
- Opportunity to analyse the data to look at coverage of CyBOK KAs across all courses

Outreach projects

- Several projects to be funded and will be announced shortly.
- Areas include:
 - Work with school students
 - Work with Local Authority sector
 - New games and visual stories for CyBOK topics
