When you use this information under the Open Government Licence, you should include the following attribution: CyBOK © Crown Copyright, The National Cyber Security Centre 2018, licensed under the Open Government Licence: http://www.nationalarchives.gov.uk/doc/open-government-licence/.

The CyBOK project would like to understand how the CyBOK is being used and its uptake. The project would like organisations using, or intending to use, CyBOK for the purposes of education, training, course development, professional development etc. to contact it at contact@cybok.org to let the project know how they are using CyBOK.
INTRODUCTION

This index provides a guide to where various topics are discussed within CyBOK. Reference terms are presented alphabetically, with the knowledge areas most likely to contain the term shown in red. If a term is likely to be found in multiple knowledge areas, then all are listed.

Note that this document is just a guide. It was produced by analysing the terms used in other professional bodies of knowledge. We do not claim that it is complete, nor do we guarantee that the knowledge areas we refer to discuss the terms in detail—just that if they are discussed in CyBOK this is where you’ll most likely find it.

For brevities sake we refer to the knowledge areas through acronyms. The acronyms are expanded below:

<table>
<thead>
<tr>
<th>Acronym</th>
<th>Knowledge Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>AAA</td>
<td>Authentication, Authorisation &amp; Accountability</td>
</tr>
<tr>
<td>AB</td>
<td>Adversarial Behaviours</td>
