
Project: Published PhD theses mapped to CyBOK

University of Kent

PI: Dr Virginia Franqueira v.franqueira@kent.ac.uk

Co-Is: Dr Jason Nurse and Professor Shujun Li

Research Assistant: Dr Rahime Belen Saglam

University of
Kent

Institute of Advanced
Studies in Cyber
Security and Conflict
(SoCyETAL)

CyBOK

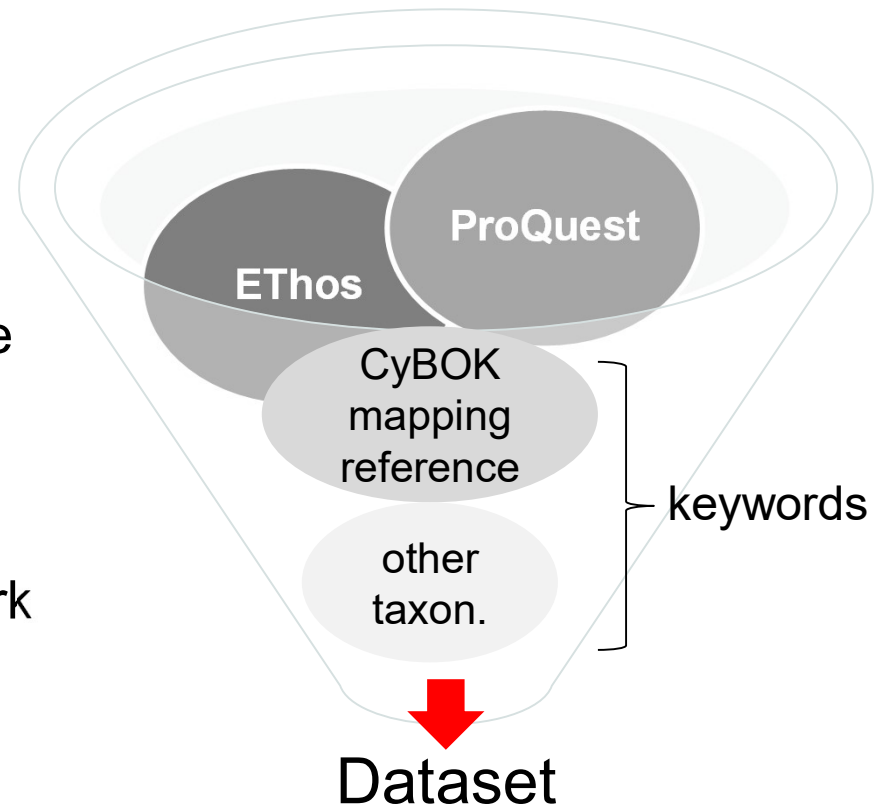

Published PhD theses mapped to CyBOK

The project aims to **map PhD topics** based on published theses, *awarded by universities in the UK and related to cyber security*, to **CyBOK** Knowledge Areas and Knowledge Trees.

Published PhD theses mapped to CyBOK

Methodology –

1. Data collection
 - CyBOK Mapping Reference
2. Topic analysis
3. Mapping analysis
 - CyBOK Mapping Framework
4. Analysis of evolution
5. Consolidation of results

Published PhD theses mapped to CyBOK

Strategic benefits –

- ✓ Insights regarding the **focus** of the PhD research landscape in cyber security in the UK
- ✓ Insights regarding how the PhD research landscape has **evolved** in the last 5 years
- ✓ Findings can inform future UK **cyber security capacity building** activities
